

# PN Template - Failure to Certify Notification to Persons Served by Known or Potential Service Line Containing Lead

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

### Reporting Requirement(s) Not Met for Carl Junction Public Water System

We were required to report **a copy of the notice and materials sent to persons served by known or potential service lines containing lead** to the State.

Our system failed to demonstrate to the State that it delivered annual notifications and information to affected consumers with lead, galvanized requiring replacement, or lead status unknown service lines as required by July 1, **2025**. Although the failure to comply with the reporting requirement does not create a risk to public health, we are required to inform you of this violation and provide additional information including what we did to correct the situation.

It is important for consumers to know if the water they are receiving has been delivered through a lead, galvanized requiring replacement (GRR), or lead status unknown service line so they can make decisions on whether and what actions to take to reduce their exposure to lead in drinking water.

#### What should I do?

There is nothing you need to do at this time. You do not need to boil your water or take other actions. Remember, boiling water does not remove lead from water.

For more information on reducing lead exposure around your home/building and the health effects of lead, visit the EPA's websites at <https://www.epa.gov/ground-water-and-drinking-water/basic-information-about-lead-drinking-water> and <http://www.epa.gov/lead>.

#### What is being done?

**While we did certify and notify the State as required, we failed to include an example of the service line notification that was sent to customers. We provided the required notifications to persons served on November 8, 2024. We are posting this notification to the public to bring the Carl Junction PWS into compliance for 2025.**

For more information, please contact Jay Morton at (417) 649-7237 or PO Box 447, Carl Junction, MO 64834.

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.\**

This notice is being sent to you by Carl Junction Public Water System.

Public Water System ID# MO5010138. Date distributed: June 8, 2026.
